OUR VALUES

TECNOLOGY

Nowadays, technology is one of the most important elements of investing and finance. We know that, that's why we constantly improve our trading application in accordance with the latest trends and solutions. Our ambition is to make BST one of the most reliable and functional trading platforms on the market.

TRUST

Over 3 years of activity in the financial markets, we have earned the trust of over 140,000 customers around the world. Your investments are safe with us - we have supervision of the world's biggest supervision authorities: FCA, KNF, and IFSC.

SUPPORT

We are here to help our clients become better investors. That's why our experienced customer service team works 24 hours a day for a good 5 days a week, and our extensive library of educational materials contains videos, webinars and courses suitable for both beginners and experienced investors.

FROM THE CEO'S DESK

In response to the evolving forces of customer financial expectations, regulatory requirements, technology, demographics, new competitors and shifting economics, much of the landscape will change significantly. Bitstocktrade (BST) has chosen what posture to adopt against this change – whether to be a shaper of the future, a fast follower, or to manage defensively, putting off change and delving into digital-assets creation through trading, investments, management and similar financial services.

Staying the same is just not an option.

BST as an award-winning **broker** trusted by global tier 1 financial institutions for their employees' personal account dealing, trading over 40,000 global instruments on market leading prices, and industry recognized platforms has been in the field of technology based assets trading, investment and management and information technology and electronic funds transfer system have emerged as the twin pillars of modern assets investments, development and management.

Products offered by likewise firms have moved way beyond conventional means and access to these services have become round the clock. This, indeed, is a revolution in the digital-assets trading, investment and management hemisphere.

International financial regulators have helped build one of the world's strongest brokerage firms and financial systems that has sailed past international crises. They are now injecting more competition by allowing different classes of digital-assets management and financial service providers.

In this report, we humbly present to all our distinguished shareholders the progress results of the three main inter-related investment funds which we are built on – BST RETURNS (as pertaining BST Investment), CRYPTO (BITCOIN) RETURNS and S&P RETURNS, the extent we have gone so far through the year ended December 31, 2020.

EFFORTS OF **BIT STOCKS TRADE** (BST) – SUSTAINABILITY REPORT**SUSTAINABILITY AND COMMUNITY INVESTMENT AT** Bitstocktrade (BST)

Sustainability is one of our core values and continues to guide our actions – our service to our customers; our business governance; and our contribution to our operating environment. Bitstocktrade' s sustainability agenda is largely influenced by the nine pillars of the International Sustainable Investment **Principles (ISIPs)**, developed and adopted by the Investors' Committee.

The principles encourage banks to promote economic growth, whilst protecting communities and the environment in the normal course of duty.

OUR BUSINESS ACTIVITIES:

Environmental and Social Risk Management

We have robust policies and procedures that integrate social and environmental management system initiatives into our various services, particularly the lending process. In addition to financial factors, our loans are evaluated through environmental and social risks parameters.

OUR BUSINESS OPERATIONS:

Environmental and Social Footprint

Clean Energy Project: IAT commenced a pilot use of solar energy at all of our branches and we were able to bring down CO² emissions and cost of fuel by 65% within four (4) months.

WOMEN'S ECONOMIC EMPOWERMENT

We recorded an increase in the number of female employees at BST versus the previous year. In addition, we have four (4) women on the Firm's Board and five of the Firm's 35-member Executive Management Committee are women.

Having achieved a female staff strength of 50% at the Firm, we are putting strategies in place to replicate this at the Group level. We have successfully passed the bill to launch our Micro Mining Farm, through which we would be able to empower close to 12,000 women-owned businesses.

To further support them, a customers' forum was held in Qatar with over 1,100 women in attendance.

FINANCIAL INCLUSION

Our Agency caters to people who do not have access to the four walls of the digital assets investments, development and management hall, providing them with basic management services within their communities.

Currently we have over 187 agents spread across the globe and we fully intend to increase this figure substantially in 2021.

CAPACITY BUILDING

Apart from knowledge improvement programs held to sensitize employees on sustainability principles, we conducted one online and three classroom training sessions covering topics such as sustainable energy finance, clean mini grid development, analyzing energy efficiency and renewable energy projects and sustainability in digital assets investments, development and management, with a total of 4,107 combined participants.

"This whole level of wholeness is a place where I am able to show up as a full human being with all of my gifts to the table to be a part of this organization. That leads to a great feeling of inclusiveness because what it allows me then to do is to bring this real, authentic self to the table and to really love the work that I do. "
